SOFTWARE ENGINEER

NEW YORK, NY

mannyununez@gmail.com
(646) 281-2781

WORK EXPERIENCE

General Assembly | Feb - May 2022

→ SOFTWARE ENGINEER FELLOW

Fellow in an industry leading Software Engineering Immersive program focusing on over 480 hours of Full-Stack Web Development

Building web apps utilizing front and back end technologies such as HTML, CSS, JavaScript, Python, MERN stack

Deploying apps using Heroku, GitHub pages, and Netlify using version control systems like Git and GitHub to maintain and update

Adorama, Inc. | Dec 2011 - Dec 2022

→ INSIDE SALES ACCOUNT EXECUTIVE

Provided technical expertise to customers regarding products, processed quotes, and orders

Served as point representative for pre- and post-sales customer service issues

Represented company and engaged new customers at special events and trade shows locally and nationally

Trained new sales and chat employees in company's order entry, maintenance and database and served as resource to colleagues

Adorama, Inc. | Jun 2009 - Jul 2011

→ CUSTOMER SERVICE AGENT

Served as specialized service agent for educational and professional sales

Employed customer retention tactics at times of disputes or irregularities, offered recommendations to substitute back-ordered items(s)

Processed modifications, credits, and order processing analysis, and worked directly with shipping carriers and warehouse when discrepancies occurred

Trained new and existing employees on products and service fundamentals

ABOUT

My quick-witted nature, along with a resourceful approach to problem solving enables me to wear many hats and fill in the gaps on a team – from exploring and finding solutions to ground level pain points to working with leadership to implement operational strategy as the company scales.
